

Our writing grows stronger when we can focus on the issues we have individually... then, as we are more aware of them, and practice making those corrections we become experts over time and those issues no longer exist!

Intentional work pays off!
LET'S GET STARTED!

I LOVE that it's personalized for ME!

1. Look over your old work and take note of your most common convention errors. Discuss with partners  and I'll be walking around for support.
2. Create a tool that you can use the rest of the year to remind yourself of trouble areas: A bookmark! (see my example!)
3. Put your bookmark to use now!
Pull out your reading response and look for conventions to edit!
